

Experienced Mechanical Engineer with Project Experience (m/f/d)

Join castus on the way to the top!

The castus group is a leading global supplier of transfer systems for the sterile and fast loading and unloading of insulators and manufacturer of stopper and cap handling systems. Around 80 brilliant minds already work for us – and now we are looking for you – a true design talent who will enrich our team with your passion, ideas and technical expertise.

Your Responsibilities – Where You'll Grow

- You will work on projects independently, from the initial design idea to the creation of the production documents.
- You will design machines, assemblies and components using modern 3D CAD systems and develop cost-effective, practical solutions.
- You will analyze functional requirements, evaluate technical feasibility and assume technical responsibility for your projects.
- You will document and present your development results both internally and to customers and project stakeholders.
- You will coordinate tasks within the project, align goals with stakeholders, and ensure the project runs smoothly.
- Depending on the scope of the project, you will work as part of a team or take full responsibility for entire work packages.
- You will coordinate task allocation, capacity planning, and prioritization with the team and continuously refine standards and design processes.

Your Profile – How You'll Move Us Forward

- You hold a technical degree (Bachelor's, Master's), are a state-certified technician (m/f/d) in mechanical engineering or have a comparable qualification.
- You have several years of professional experience in mechanical design and independently managing technical projects.
- You are proficient in using 3D CAD systems, preferably SolidWorks.
- You take responsibility, think in a solution-oriented manner and are passionate about development technical solutions.
- You are comfortable working with standard MS Office applications.

Why castus is the Right Fit for You

- You want to create, not just execute: At castus your ideas count and you'll have the freedom to make a real impact.
- You need stability: We offer a secure and permanent position after the probation period.
- You thrive on variety: Every day is different here – your skills will be in constant demand.
- You value autonomy: We trust you with responsibility and give you room to grow personally and professionally.
- You want to belong: At castus, you're not just a number – you're a valued member of the team.

Ready to take the next step?
We look forward to receiving your application!
